EXPERIENCE

FAKIR MOHAN FOUNDATION | TECH HEAD

August 2021 – Present | New Delhi

- Assisted the Managing Trustee and Founder with manuscript editing and coordination for publications including Animal Icons.
- Led the design and development of the official website (fakirmohanfoundation.org), enabling the foundation's online presence.
- Designed promotional material such as posters, flyers, and event graphics for outreach and communication.
- Organized and hosted virtual meetings, maintaining professional correspondence and schedules.
- Supported documentation, report writing, and administrative processes to streamline daily operations.

FIVERR | GRAPHIC DESIGNER (FREELANCE)

Aug 2024 – Present | Remote

- Delivered creative design solutions to international clients, specializing in custom book covers and branding.
- Deepened expertise in Adobe Creative Suite through real-world projects and consistent client feedback.
- Successfully managed multiple freelance commissions with strong communication and deadline adherence.

SHUBHI PUBLICATION | BOOK DESIGNER

Apr 2025 – May 2025 | Delhi, India

- Handled book manuscripting and interior page layout for multiple titles using Adobe InDesign.
- Ensured formatting consistency and readability across various publishing formats.

PROJECTS

MENSTRUAL TRACKER APP | PERSONAL PROJECT | PYTHON, TKINTER, PANDAS, MYSQL

Jan 2024 | Delhi, India

- Developed a desktop application using Python and Tkinter to track and log menstrual cycles.
- Integrated Pandas for data handling and visualization of user history.
- Connected the app to a MySQL database to store user inputs and generate reports.

TASKMATE – TO-DO LIST APP | PERSONAL PROJECT | PYTHON, TKINTER, SQLITE

Aug 2024 – Sep 2024 | New Delhi, India

- Built a task management app with GUI that allows users to create, mark complete, and delete tasks.
- Integrated SQLite to store tasks locally and maintain data between sessions.
- Planned future updates including task prioritization and deadline alerts.
- Designed a clean, user-friendly interface using Tkinter.
